

VP60 sector antenna 60 deg. 16 dBi

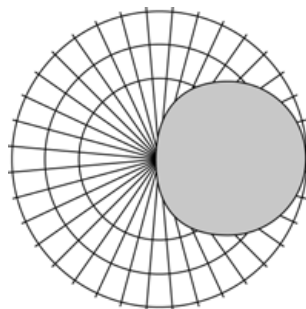

- Designed for low profile environments
- Stainless steel mounting equipment
- Excellent radiation characteristics
- Fast and easy wall mount
- Durable housing
- Light weight
- Vertically polarized
- 16 dBi Antenna gain
- High front to back ratio
- Type N Female connector
- Strong pole mounting material included

Specifications

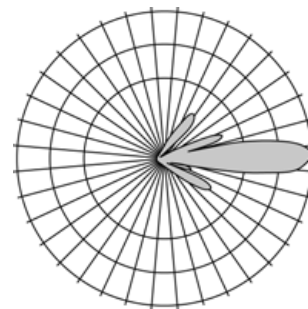

Type	Directional panel antenna
Polarization	Vertical
Frequency	5470 – 5875 Mhz
Impedance	50 OHM
VSWR	<1,7:1
Gain	16 dBi
Connector	N-female
Power rating	20 Watt
Dimensions (cm)	6,5x35,5x8
Angular swing	45 degrees in azimuth
Weight	725 g
Colour	White
Material	Reflector - aluminium radome – ABS

The 90 degrees angle N adaptor is included.
