

## Omni 2 dBi car antenna

Designed for automotive applications

Simple and fast in-car installation

Double omni antenna

2 meter cable

2 dBi gain

Small size

Light weight

Gold plated RP-SMA connector

Adhesive backside for extra simple installation

### Designed for automotive applications

Because of the low profile this antenna blends easily in any environment .

The antenna is perfect for usage in cars or for other mobile applications.

By using the adhesive backside of the antenna you can simply install the antenna everywhere you want.

An extra long 2 meter cable gives you more placing freedom.

The small size makes the antenna easy to hide, for instance behind your rear view mirror.

When installing hardware under the dashboard, simply extend your antenna with the "omni2 car antenna".

*Low loss gold plated RP-SMA connector*

*Easy installation with the antennas' adhesive backside.*
